

# Install Guide – Apple TV

NDTC Stream IT TV works with

- Apple TV 3rd Generation
- Apple TV 4K
- Apple TV HD

View all the NDTC Stream It TV supported devices here: <https://www.gondtc.com/docs/Streamit-devices.pdf>

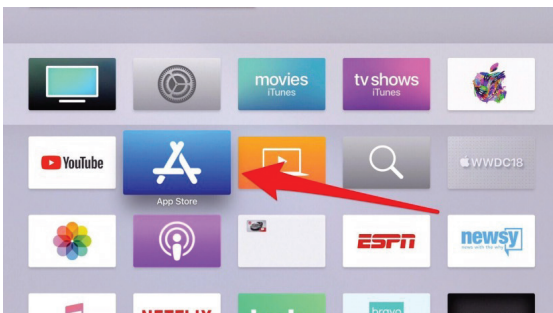

Click here (<https://support.apple.com/en-us/HT200008>) for help identifying which Apple TV device you have.

1. Connect your device to your NDTC home internet service, to ensure you are able to access your entire TV lineup. During setup, select 5GHz on your home's wireless network when prompted.

If you do not have an Apple ID, you can create a free one here: <https://appleid.apple.com/account>

2. Follow the Apple instruction links below to set up your Apple TV for the first time:
  - 3rd Generation: <https://support.apple.com/kb/HT210092>
  - 4K / HD: <https://support.apple.com/en-us/HT205358#appletv4kappletvhd>

3. Once your Apple TV is set up, navigate to the App Store.

4. From within the App Store, search for NDTC Stream It TV, highlight the app, and select it to begin downloading.
5. Once the App is downloaded, select Open to launch NDTC Stream IT TV.
6. Enter your username and password for NDTC Stream IT TV.
